B NEWS

TENCEL® THE NEW AGE FIBER

GREAT MOISTURE ABSORPTION: its nano-fibrillar hydrophilic structure optimizes the absorption of moisture providing comfort. In terms of relative humidity, Tencel® is 3 times more absorbent than cotton and 2 times more absorbent than wool.

TERMOREGULATOR: regulates the body temperature, being as cool as linen and as warm as wool.

ANTIPEELING: Tencel® is treated to avoid peeling.

NATURAL ANTIBACTERIAL PROPERTIES: It inhibits the bacteria growth (2,000 times more hygienic than Polyamide).

ORGANIC: its process is environmentally friendly and produces no pollution or harmful substances. Tencel® is made of wood and then 100% natural.

WATERPROOF: waterproof resistance, washing cycles, ecological fabric in all senses.

MORE GENTLE AND HYPOALLERGENIC: Its extreme purity, silky smooth and free of chemicals is ideal for sensitive and delicate skins as it does not cause allergies or irritations.
